

# Your Guide to Eco-Friendly Living

## 01.

### Recycle everything

Chances are that if you're thinking about taking on a more eco-friendly lifestyle then you should already be recycling.

## 02.

### Try to cut out plastic

Giving it up isn't as difficult as you might think – bring a canvas bag with you when you go shopping.

## 03.

### Fix it, don't throw it

Repairing or fixing something is more environmentally friendly than simply throwing things away, although the latter may seem easier and cheaper sometimes.

## 04.

### Don't drive

When you do have to drive, make sure that you get the most out of your vehicle by keeping the speed down, ensuring tires are properly inflated and that the engine is running smoothly.

## 05.

### Compost

Not only will this help create a natural fertilizer and keep your garden green, but it'll also reduce the amount of waste going to landfill.
